

World Council of Enterostomal Therapists

WCET

WCET Mission

The WCET Mission is to lead the global advancement of specialised professional nursing care for people with ostomy, wound or continence needs.

WCET Vision

The vision of the World Council of Enterostomal Therapists is:

- ◆ To ensure specialised nursing care is available worldwide for all people with a need for ostomy, wound or continence care.
- ◆ To provide nurses worldwide with access to ostomy, wound and continence specialty education.
- ◆ Recognition as the global organisation for ostomy, wound and continence care providers.
- ◆ Identification as the global leader in the specialty of ostomy, wound and continence care.

WCET Values

The World Council of Enterostomal Therapists aspires to the core values of:

- ◆ Respect - for the dignity and individual diversity of all persons.
- ◆ Integrity - adherence to a recognised code of ethics.
- ◆ Communication - fostering collaboration between members and other interested parties.
- ◆ Holistic care - encompassing care for body, mind and spirit.
- ◆ Scientific approach - advancement of research and evidence-based specialised education and care.
